

Pollogen LEGEND™

simply makes it happen

- Fat Reduction
- Dermal volumizing
- Wrinkle reduction
- Skin tightening & resurfacing

What is it?

The Pollogen LEGEND is an aesthetic system using non-surgical techniques for skin rejuvenation. Incorporating two leading and clinically proven industry technologies the Pollogen LEGEND provides results that are immediate and long term, with minimal pain and almost no downtime.

A winning combination – 2 technologies

Hybrid Energy™ with volumizing effect, uses fine micro-needles and radio frequency technology to trigger the body's natural healing response mechanism. This stimulates the body to naturally produce hyaluronic acid, new collagen and elastin.

Trilipo® RF energy with Dynamic Muscle Activation (DMA) works concurrently on the dermis, hypodermis [fat] and muscle layers to non-invasively deliver superior fat reduction and body contouring.

What should I expect?

How many treatments will it take to see results?

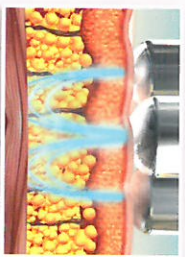

You will see and feel results from your very first treatment. In order to get the best results, a course of treatments is highly recommended. A series of treatments will ensure enhanced results.

How does it work?

Hybrid Energy™ (with volumizing effect) is a minimally invasive treatment. Volume uses RF to safely and effectively target the deep dermis layer of the skin. A 2nd electrical energy creates micro-wounds which trigger the production of new collagen, elastin & hyaluronic acid.

Trilipo® RF energy + Dynamic Muscle Activation (DMA)
RF Energy heats the subcutaneous fat tissue layer stimulating the release of liquid fat from the cells accelerating natural fat metabolism.
Simultaneous internal and external pressure on the fat layer drains the fat via the DMA lymphatic drainage mechanism optimizing tissue oxygenation and detoxification.

What can I expect after treatment?

Following Trilipo and Hybrid Energy (with volumizing effect) treatments you will see immediate visible results.

During Trilipo treatments there might be slight redness and/or edema lasting from a couple of hours up to a day.

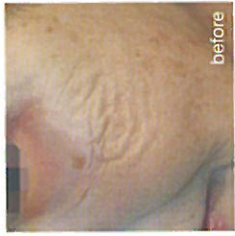

After Hybrid Energy treatments there might be some tiny scabbing which will naturally heal after a few days. The area may be covered with make-up.

How long do the treatments take?

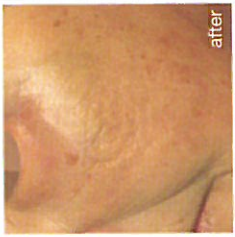

Each treatment will take about 30 minutes and you can immediately return to your daily activities.

- Dermal volumizing
- Skin tightening
- Skin resurfacing
- Facial contouring
- Wrinkle reduction
- Cellulite & circumference reduction
- Body contouring
